**First name:**

**Citizenship:**

**Passport #:**

**Passport issued by/country:**

**Date of Issue:**

**Expiration date:**

**Place passport was issued:**

**Date of birth:**

**Place of birth:**

### **Why Passport Information is being requested...**

The directors are keeping passport information in case crewmembers lose their passport and in order to determine whether participants will need travel visas in order to excavate in Portugal. Participants with a European Union or American Passport will not need a visa although we request that you fill out this information anyway.

Please note that the duration of stay for a tourist visa is not more than 3 months. American citizens do not need to request for a special visa but they are only guaranteed 3 months visitation in Portugal.

Participants without a work visa are not allowed to obtain employment while in Portugal. This is both a crime in Portugal and in the U.S. and can lead to immediate deportation as well as possible legal complications and fines and the denial of re-entry into Europe.

Your work at the excavation site/program is not considered employment in the eyes of the E.U. although you may certainly put the excavation/program on your C.V. or resume as a work experience.

None of the information on this form will be shared with other individuals and will be destroyed after the excavation/program is finished.

**Please attach a copy of the face page of your passport with this form.**

If you have not obtained a passport yet, please do so immediately as the tourist season is beginning soon and the turn-around time for issuing passports can be as much as 3 months and as little as 2 weeks.
